

# Local Government & United Energy Strategic Planning Workshop

January 2015

# Introductions

# Session Objectives

- showcase well planned, integrated energy solutions within major activity centres
- build knowledge and capacity within the Local Government sector on integrating district energy projects into future developments and policy
- connect key Council staff with energy distribution network planners
- Identify new opportunities for district scale energy solutions
- provide a networking opportunity with peers

# Session Overview

Now	Introductions
10.15am	Summary of United Energy network (Rodney Bray, UE)
10.50am	Doncaster Hill case study (Faye Adams, Manningham)
11.10am	Activity – opportunity identification
11.45am	Next steps
11.55am	Networking and light lunch

# Ice breaker

# United Energy Network

Rodney Bray  
Manager Network Planning

T: (03) 8846 9745  
E: [rodney.bray@ue.com.au](mailto:rodney.bray@ue.com.au)

# Doncaster Hill Case Study

Faye Adams  
Senior ESD Officer  
Manningham City Council

T: 03 9840 9325  
E: [faye.adams@manningham.vic.gov.au](mailto:faye.adams@manningham.vic.gov.au)

# Activity - Instructions

In council groups, take 20mins to complete the tables on the worksheets by:

- identifying future high density residential developments adjacent to or within established major commercial or industrial precincts
- indicating number of stories, dwellings, offices etc, their anticipated completion date and mark their locations on the map
- Identifying new green field sites (if any)

# Activity - Instructions

In council groups, take 20mins to complete the tables on the worksheets by:

- identifying future high density residential developments adjacent to or within established major commercial or industrial precincts
- indicating number of stories, dwellings, offices etc, their anticipated completion date and mark their locations on the map
- Identifying new green field sites (if any)

# Next Steps

*Example output*

Existing planning opportunity

Potential planning opportunity requiring further investigation
